CONCEPT

1. This website aims to provide ease and comfort to our struggling parents by giving them options to Buy, Sell and Swap their Baby Products in the comforts of their homes.
- 

THE PROBLEM?

Being a parent requires a lot of Physical, Mental, Emotional, and financial capability. As a parent, I have experienced the struggle of buying expensive stuff for my child that can only be used for a short period. Your Storage will be filled with unused old clothes and things of your baby that will occupy most of your space.
